

Page 1: Introduction to Digital Marketing

What is Digital Marketing?

Digital marketing refers to the promotion of products, services, or brands using digital technologies such as websites, search engines, social media platforms, mobile apps, email, and online advertising.

Key Objectives of Digital Marketing

- Brand Awareness
- Lead Generation
- Website Traffic Growth
- Customer Engagement
- Sales & Revenue Growth
- Customer Retention

Core Components of Digital Marketing

1. Search Engine Optimisation (SEO)
2. Search Engine Marketing (SEM)
3. Social Media Marketing (SMM)
4. Email Marketing
5. Content Marketing
6. Influencer Marketing
7. Performance Marketing
8. Marketing Automation
9. Analytics & Measurement

Digital Marketing Funnel

1. Awareness

Customer discovers the brand. Tools: Display Ads, Social Media, Influencers, Video Ads.

2. Consideration

Customer compares options. Tools: Blogs, Reviews, Retargeting Ads, Email Campaigns.

3. Conversion

Customer takes action. Tools: Landing Pages, Offers, CRO, Checkout Optimisation.

4. Retention

Customer continues engagement. Tools: Email Automation, Loyalty Programs, Push Notifications.

5. Advocacy

Satisfied customers promote the brand. Tools: Referral Campaigns, UGC, Reviews, Community Marketing.

Page 2: Search Engine Marketing & Google Ads

Search Engine Marketing (SEM)

SEM involves paid advertising on search engines like Google.

Types of Google Ads

1. Search Ads

- Text ads appearing on search results.
- Best for high-intent users.
- Useful for immediate conversions.

2. Display Ads

- Visual banner advertisements.
- Used for awareness and retargeting.

3. Shopping Ads

- Product-based ads with image, price, and rating.
- Highly effective for e-commerce.

4. App Install Campaigns

- Promote mobile application downloads.

5. Performance Max (PMax)

- AI-driven campaign across all Google properties.
- Uses automation and machine learning.
- Covers Search, Display, YouTube, Gmail, and Maps.

Search Ads vs Performance Max

Search Ads	Performance Max
High intent targeting	Full funnel targeting
Keyword based	Audience and automation based
More manual control	AI-driven optimisation
Better for direct conversions	Better for scale and discovery

Important Metrics

- CPC (Cost Per Click)
 - CTR (Click Through Rate)
 - CPA (Cost Per Acquisition)
 - ROAS (Return on Ad Spend)
 - Conversion Rate
-

Page 3: Social Media Marketing & Meta Ecosystem

Social Media Marketing (SMM)

Using social platforms to build brand awareness, engagement, and conversions.

Major Platforms

- Facebook
- Instagram
- LinkedIn
- YouTube
- X (Twitter)
- Snapchat

Meta Ads Objectives

Awareness

Reach maximum users.

Traffic

Drive users to website or app.

Engagement

Increase likes, comments, shares.

Lead Generation

Collect customer information directly.

App Promotion

Increase app installs and usage.

Sales/Conversions

Drive purchases and actions.

Meta Business Suite

A tool for:

- Scheduling posts
- Monitoring engagement
- Audience insights
- Content management
- Performance reporting

Custom Audience

Audiences created using:

- Customer email lists
- Website visitors via Meta Pixel
- App activity
- Engagement data

Lookalike Audience

New users who resemble existing customers. Useful for scaling campaigns.

Social Listening

Monitoring online conversations, mentions, and customer sentiment. Benefits:

- Reputation management
- Trend identification
- Customer feedback analysis
- Faster response handling

Page 4: Email Marketing & Marketing Automation

Email Marketing

Direct communication with users through emails.

Benefits

- High ROI
- Personalised communication
- Customer retention
- Automated nurturing

Types of Email Campaigns

1. Promotional Emails
2. Newsletter Emails

3. Transactional Emails
4. Re-engagement Emails
5. Drip Campaigns

Email Marketing Metrics

- Open Rate
- CTR (Click Through Rate)
- Conversion Rate
- Bounce Rate
- Revenue Per Email (RPE)
- Unsubscribe Rate

Marketing Automation

Using software to automate repetitive marketing tasks.

Common Automation Tools

- Zapier
- HubSpot
- Mailchimp
- Google Tag Manager
- Firebase

Benefits of Automation

- Saves time
- Reduces manual work
- Improves targeting
- Faster customer communication
- Better personalisation
- Improves efficiency and ROI

Example: 3-Step Re-engagement Workflow

Email 1: Reminder

Trigger: User inactive for 30–60 days. Goal: Bring customer back. CTA: “Explore New Offers”

Email 2: Incentive

Trigger: No response to first email. Goal: Encourage purchase. CTA: “Claim 20% Discount”

Email 3: Urgency

Trigger: Final reminder. Goal: Drive immediate action. CTA: "Offer Ends Tonight"

Page 5: Conversion Rate Optimisation (CRO)

What is CRO?

Conversion Rate Optimisation improves the percentage of users completing desired actions.

Common Conversion Goals

- Purchases
- Lead submissions
- Sign-ups
- App downloads
- Newsletter subscriptions

Reasons for Cart Abandonment

- High prices
- Complex checkout
- Slow website speed
- Hidden charges
- Lack of trust
- Limited payment options

CRO Strategies

1. Faster website loading
2. Simplified checkout process
3. Mobile optimisation
4. Trust badges and reviews
5. Better product descriptions
6. Retargeting ads
7. Exit-intent popups
8. A/B testing

A/B Testing

Comparing two versions of a webpage or ad to determine better performance.

Heatmaps

Visual tools showing where users click and scroll. Tools: Hotjar, Microsoft Clarity.

Landing Page Best Practices

- Clear headline
 - Strong CTA
 - Minimal distractions
 - Mobile-friendly design
 - Fast loading speed
-

Page 6: Analytics, Tracking & Attribution

Importance of Analytics

Analytics helps marketers measure campaign effectiveness and user behaviour.

Google Analytics 4 (GA4)

GA4 is Google's advanced analytics platform.

Key Features of GA4

- Event-based tracking
- Cross-device measurement
- Predictive analytics
- Enhanced reporting
- Customer journey tracking

UTM Parameters

UTM tags help track traffic sources.

Example: `website.com/?utm_source=facebook&utm_medium=cpc&utm_campaign=sale`

Important UTM Parameters

- `utm_source`
- `utm_medium`
- `utm_campaign`
- `utm_content`
- `utm_term`

Attribution Models

Last Click Attribution

Credits last interaction.

First Click Attribution

Credits first interaction.

Linear Attribution

Equal credit to all touchpoints.

Data-Driven Attribution

Uses AI and user behaviour.

Important KPIs

- Traffic
 - Engagement Rate
 - Conversion Rate
 - Customer Acquisition Cost (CAC)
 - Lifetime Value (LTV)
 - Return on Investment (ROI)
 - ROAS
-

Page 7: Programmatic Advertising & Performance Marketing

Programmatic Advertising

Automated buying and selling of digital ads using algorithms and real-time bidding.

Features of Programmatic Advertising

- Automated ad buying
- Audience targeting
- Real-time bidding (RTB)
- AI-driven optimisation
- Better efficiency

Advantages

- Faster campaign execution
- Precise targeting
- Improved ROI
- Real-time optimisation
- Reduced wastage

Performance Marketing

Marketing where advertisers pay for measurable actions.

Common Payment Models

CPC (Cost Per Click)

Advertiser pays per click.

CPM (Cost Per Mille)

Advertiser pays per 1000 impressions.

CPA (Cost Per Acquisition)

Advertiser pays for conversion.

CPL (Cost Per Lead)

Advertiser pays per lead.

Retargeting

Showing ads to users who previously interacted with the brand.

Remarketing Channels

- Google Display Network
 - Meta Ads
 - Email Marketing
 - Push Notifications
-

Page 8: Content Marketing & Influencer Marketing

Content Marketing

Creating and distributing valuable content to attract and engage audiences.

Types of Content

- Blogs
- Videos
- Infographics
- Podcasts
- Reels and Shorts
- E-books
- Case Studies

Benefits of Content Marketing

- Builds trust
- Improves SEO

- Generates leads
- Enhances engagement
- Establishes authority

Influencer Marketing

Collaboration with creators or influencers to promote products.

Types of Influencers

Type Followers

Nano 1K–10K

Micro 10K–100K

Macro 100K–1M

Mega 1M+

Influencer Campaign Metrics

- Reach
- Engagement Rate
- Video Views
- Conversions
- Brand Mentions

User Generated Content (UGC)

Content created by customers. Benefits:

- Higher trust
- Authenticity
- Better engagement
- Community building

Viral Marketing

Content spreads rapidly through sharing and engagement.

Page 9: E-Commerce & Omnichannel Marketing

E-Commerce Marketing

Digital strategies used to increase online sales.

Omnichannel Marketing

Integrated customer experience across multiple channels.

Omnichannel Channels

- Website
- Mobile App
- Physical Stores
- Social Media
- Email
- WhatsApp
- Customer Support

Benefits of Omnichannel Marketing

- Better customer experience
- Consistent branding
- Improved retention
- Higher conversions

Customer Journey Example

Awareness

Instagram Reel Ad

Consideration

Website visit and reviews

Conversion

Discount email + retargeting ad

Retention

Push notifications and loyalty rewards

Advocacy

Referral campaign and social sharing

Push Notifications

Short alerts sent via mobile apps or browsers. Used for:

- Order updates
- Offers
- Re-engagement
- Reminders

WhatsApp Business Marketing

Uses WhatsApp for customer communication. Benefits:

- High open rates
 - Instant communication
 - Personalisation
 - Order tracking
-

Page 10: Important Short Notes

Important Definitions

SEO

Optimising websites to rank organically on search engines.

SEM

Paid promotion on search engines.

CTR

Percentage of users clicking an ad.

Bounce Rate

Percentage of users leaving without interaction.

CAC

Cost to acquire one customer.

ROAS

Revenue generated from ad spend.
